

Product Change Notice

Issue Date: 01st February 2011

Change Type:

Avago qualified 8 mils die and Al wire for HCMS-2973.

Parts Affected:

HCMS-2973

Description and Extent of Change:

a) Die Height Change

Current	10 mils
New	8 mils

b) Wire Type Change

Current	Gold (Au)
New	Aluminum (Al)

Reasons for Change:

To ensure supply continuity to customer.

Effect of Change on Fit, Form, Function, Quality, or Reliability:

The device specification and product electrical performance will remain no change. However, the brightness distribution is expected to shift to brighter bin from existing bin G & H to bin H & I.

Appropriate electrical characterization and reliability qualification has been performed on the product to ensure normal parametric distribution and consistence electrical and reliability performance.

Effective Date of Change:

New changes will be implemented on 1st May 2011. From this date onwards, shipment may contain either existing or new LED until existing LED is depleted.

Qualification Data:

Qualification data will be provided upon request.

These changes have been reviewed and approved by Avago Technologies engineers and managers per Avago Technologies procedure: Change Control and Customer Notification, A-5962-6052-80.

Please contact your Avago Technologies field sales engineer or Contact Center (<http://www.avagotech.com/contact/>) for any questions or support requirements. Please return any response as soon as possible, but not to exceed 30 days.
