PRODUCT CHANGE NOTICE

Western Digital® Embedded Flash

Dear Valued Western Digital® Customer:

As a result of product evaluation consistent with Western Digital's quality systems and our commitment to provide the highest quality products, Western Digital will be transitioning to a new substrate vendor due to supply constraint from previous substrate vendor.

Reason for Change:

Due to supply constraint from UMTC, Western Digital(WD) will be transitioning to new substrate vendor - Fast Print.

Description of Change:

No change in the substrate design and manufacturing method
UMTC (WD substrate supplier) will stop supporting Western Digital hard gold substrate supply by end of 2022. The new hard gold substrate supplier(Fast Print) passed qualification and added into WD Approved Vendor List (AVL).

Products Affected:

Part Number	Description
SDSDAD-016G	Commercial Class 10 SD CL LD301
SDSDAD-016G-J	Commercial Class 10 SD CL LD301
SDSDAD-032G	Commercial Class 10 SD CL LD301
SDSDAD-032G-J	Commercial Class 10 SD CL LD301

Forecasted Key Milestones:

Milestone	Date
Qualified Samples Availability for Customer Qualification	TBD

Reference Documents / Attachments:

Relevant qualification documentation will be provided upon request.

Implementation:

Should you have any issues with the timeline or content of this change, please contact the Representative listed below within 30 days. No response will be deemed as customer's acceptance of the change and the change will be implemented pursuant to the key milestones set forth in this PCN.
