

Product Change Notification

Dear valued customer,

Excelitas will be making changes to products that you are currently purchasing as outlined below. Should you have any questions please reach out to the contacts listed.

Date of Issue	May 18 th , 2020
Title of Change	Changer of header supplier
Originator	Denis Boudreau
Product Group	High Performance Sensors
Affected Part Number(s)	PGAC1S16 CD3123
Description of change	<p>Our current supplier of headers for this assembly has discontinued the part, we are therefore forced to qualify a new supplier. With the limited quantity of parts that the current supplier can provide under our last time buy order, we can build approximately 1,000 more units of PGAC1S16 CD3123. Afterwards deliveries will need to come from parts built with headers from the new supplier.</p> <p>The header is the metal part onto which the chip is mounted and contains the pins for connection to the customer PCB.</p> <p>There will be no changes to form, fit or function by going from one header supplier to another on this part.</p> <p>We expect to have qualification units built up with the new headers by July 19th based on the current delivery timeline of the new header supplier. These units will then be submitted to a 1,000 hour life test before being deemed acceptable for production use in early September.</p>
Effective date of change	September, 2020
