

Product Change Notification

111720 - 01

Information in this document is provided in connection with Intel® products. No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document. Except as provided in Intel's Terms and Conditions of Sale for such products, Intel assumes no liability whatsoever, and Intel disclaims any express or implied warranty, relating to sale and/or use of Intel products including liability or warranties relating to fitness for a particular purpose, merchantability, or infringement of any patent, copyright or other intellectual property right. Intel products are not intended for use in medical, life saving, or life sustaining applications. Intel may make changes to specifications and product descriptions at any time, without notice.

Should you have any issues with the timeline or content of this change, please contact the Intel Representative(s) for your geographic location listed below. No response from customers will be deemed as acceptance of the change and the change will be implemented pursuant to the key milestones set forth in this attached PCN.

Product Change Notification

Change Notification #: 111720 - 01
Change Title: Intel® Desktop Board DN2800MT, Boxed & Bulk
PCN 111720-01, Product Material
CPU Stepping Change
Reason for Revision: Add Clarifying
Information to Customer Impact Statement
Date of Publication: September 10, 2012

Key Characteristics of the Change:
Product Material

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Nov 12, 2012
---	--------------

Description of Change to the Customer:

Reason for Revision: Add Clarifying Information to Customer Impact Statement

The DN2800MT CPU will be converting from B2 to B3 stepping.

Customer Impact of Change and Recommended Action:

1. It has been observed that the change to the new B3 stepping reports a "New device Detected" in some operating systems. Microsoft* Windows will display a message and automatically install the necessary drivers; however, customers may wish to update their OS image to avoid the message.
2. For B3 stepping, the CPU should use the Gfx driver V.1083 or later version.

These changes have been thoroughly evaluated to ensure there is no quality, reliability, or functional implication to our customers. Intel is not recommending additional qualification of these changes on platforms received from Intel.

Milestone dates are estimates and subject to change based on business and operational conditions.
