PCN# 20230210000.1 Qualification of TI CDAT as Additional Assembly Site for Select QFN Package Device Change Notification / Sample Request

Date: March 07, 2023

To: TOKYO ELECTRON DEVICE (DSTR) PCN

Dear Customer:

This is an announcement of a change to a device that is currently offered by Texas Instruments. The details of this change are on the following pages.

Texas Instruments requires acknowledgement of receipt of this notification within **30** days of the date of this notice. Lack of acknowledgement of this notice within 30 days constitutes acceptance of the change. If samples or additional data are required, requests must be received within **30** days of this notification.

The changes discussed within this PCN will not take effect any earlier than the proposed first ship date on Page 3 of this notification, unless customer agreement has been reached on an earlier implementation of the change.

This notice does not change the end-of-life status of any product. Should product affected be on a previously issued product withdrawal/discontinuance notice, this notification does not extend the life of that product or change the life time buy offering/discontinuance plan.

For questions regarding this notice or to provide acknowledgement of this PCN, you may contact your local Field Sales Representative or the PCN Team (<u>PCN ww admin team@list.ti.com</u>). For sample requests or sample related questions, contact your local Field Sales Representative.

Sincerely,

PCN Team SC Business Services

20230210000.1 Attachment: 1

Products Affected:

The devices listed on this page are a subset of the complete list of affected devices. According to our records, these are the devices that you have purchased within the past twenty-four (24) months. The corresponding customer part number is also listed, if available.

Description of Change:

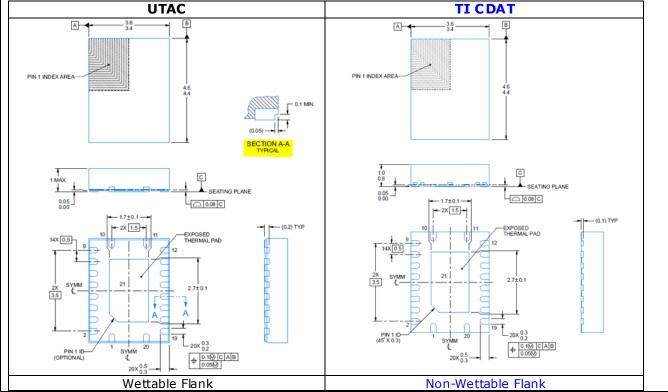

Texas Instruments Incorporated is announcing the qualification TI CDAT as Additional Assembly Site for select device listed in the "Product Affected" Section. Current assembly sites and Material differences are as follows.

| Assembly Site | Assembly Site Origin | Assembly Country Code | Assembly Site City |
|---------------|----------------------|-----------------------|--------------------|
| UTAC | NSE | THA | Bangkok |
| TICDAT | CDA | CHN | Chengdu |

Material Differences:

| | UTAC | TI CDAT |
|----------------|----------|-----------|
| Mount Compound | PZ0035 | 4207123 |
| Wire Type | 1mil Cu | 0.8mil Cu |
| Lead finish | Matte Sn | NiPdAu |

Package Outline Differences:

Reason for Change:

Continuity of supply.

- To align with world technology trends and use wiring with enhanced mechanical and electrical properties
- 2) Maximize flexibility within our Assembly/Test production sites.
- 3) Cu is easier to obtain and stock

Anticipated impact on Form, Fit, Function, Quality or Reliability (positive / negative):

None

Impact on Environmental Ratings:

Checked boxes indicate the status of environmental ratings following implementation of this change. If below boxes are checked, there are no changes to the associated environmental ratings.

| RoHS | REACH | Green Status | IEC 62474 |
