TOKYO ELECTRON DEVICE (DSTR)

Dear Customer:

The recipient has been identified for notification of changes for one or more of the products affected by the change detailed in the notice. Customers are notified based on recent customer purchase history or the recipient is listed as being part of GIDEP (Government-Industry Data Exchange Program).

TI would appreciate it if you would notify us of any future demand and estimated quantities needed for the affected products as soon as possible.

In an attempt to satisfy continuing requirements, TI is offering a non-cancelable, non-refundable last time buy for the product. Related dates are included in the notification. We will contact you as soon as we have completed a review of all customer responses and determined the appropriate course of action required to satisfy the need for this/these products.

If you require additional supply beyond the dates defined in this letter, please contact your local Field Sales Representative to determine if the parts may be available from a TI-authorized distributor for discontinued products. There is no guarantee of continued supply for these products.

For questions regarding this notice, contact your local Field Sales Representative or the Change Management team.

Sincerely,

Change Management Team

Product Discontinuance Notification Details				
Description of Discontinuance:				
<p>Texas Instruments Incorporated (TI) is announcing the discontinuance of the TPS5450, TPS5450-Q1 devices. Part Numbers are listed in the Product Affected table below. A non-cancelable, non-refundable last time buy is being offered per the date shown above. TI does not have any products that could serve as suitable replacement devices.</p> <p>NOTE: There are no samples offered for withdrawn/obsolete products. For samples of any replacement products, please contact your local sales representative.</p>				
Reason for Withdrawal/ Discontinuance:				
This PDN is related to TI's multiyear transition plan for DFAB in Dallas, Texas. DFAB will remain open, but will focus on 200-mm production, with a smaller set of technologies. The technology for these devices is being phased out of DFAB.
